

# MAPPING MANITOBA 2019

April 24, 2019 | 7am to 9am | The Fort Garry | 222 Broadway

## Embracing Technology & the Impact of Artificial Intelligence in the Workplace

Hosted by the Young Associates, Mapping Manitoba provides young leaders with a forum to discuss pertinent issues facing business and the economy of Manitoba. The 20th annual Mapping Manitoba will focus on the influence that technology and artificial intelligence has on the workplace of today, and the impact for both employers and employees. The panel will be comprised of distinguished leaders and experts in this field.

With an engaged audience of emerging business leaders, and an influential and knowledgeable panel, 2019 Mapping Manitoba promises to be yet another successful event. A hot breakfast buffet is provided for guests, along with time for topic discussion and networking.
